## Experience

### Software Developer Engineer @ Tikaj

Full-time | 03/2022 - 06/2024

- Worked on two SaaS products: UNITYdx, which provides automation and monitoring features for the Unity Safety document exchange to facilitate the sharing of safety documents, and UNITYai.Lit, which facilitates literature management activities.
- **Responsibilities:** Designing and developing user interfaces using React and Figma, creating and managing REST APIs in the backend using Nest, preparing technical and architectural documents, and managing staging, testing, and production deployments.
- Developed a common reusable components library using Ant Design, resulting in an 80% reduction in UI development time across both products. Created a reusable export feature for PDF and XML, and designed multiple templates using Puppeteer on the backend.

### Full Stack Developer @ Anumak & Company

Internship | 07/2022 - 10/2022

- Worked on a SaaS product that offers hybrid workspaces.
- **Responsibilities:** Designing and developing user interfaces using Figma and React.
- Used MUI for pre-build components, and handling data management efficiently using Redux.

## Skills

**Programming Languages:** JavaScript, C++, TypeScript

**Libraries / Frameworks:** React, Tailwind, Nest, Redux, Ant Design, ShadCn

**Databases:** MongoDB, PostgreSQL, Supabase

**Tools / Platforms:** Git, GitHub, Jira, Photoshop, Canva

## Education

### Rajiv Gandhi Prodyogiki Vishwavidyalaya

B-Tech Computer Science Engineering

CGPA: 7.61

2018 - 2022

Bhopal, MP

### MKD Public Higher Secondary School

12th M.P Board

2017 - 2018

Narsinghpur, MP

## Projects

### Get Hired | Url

- Developing a SaaS Product for Recruiting Professionals.
- Used React(vite) and ScadCn for developing user interfaces, and Supabase for backend.

### Tiffin Box | Url

- Developing a SaaS product that offers working professionals and students an easy way to manage their daily meals.
- Used React and Ant design for developing user interfaces, Nest and MongoDB for developing backend and REST APIs.
